# About the Seminar <<<<

We live in an era where technology is fundamentally redefining how we live, work, and think. Artificial Intelligence is transforming decision-making and creating new career opportunities. Blockchain is reshaping trust and transactions, underpinning global economic infrastructure. Recognized by the UN as the International Year of Quantum Science and Technology, 2025 signifies a leap in transitioning quantum computing from theory to real-world applications. Cybersecurity remains essential for protecting our interconnected society from data breaches, fraud, and infrastructure attacks.

The Emerging Tech Seminar 2025 by Vision AI India (A Subsidiary of VisionIAS) bridges the knowledge and skills gap. This full-day immersive event connects curiosity with capability through insightful talks, interactive sessions, Participants will understand emerging technologies and learn to apply them meaningfully in studies, career, and daily life—empowering them to stay ahead in a world driven by innovation.

## Why Associate with Emerging Tech Seminar 2025

- ✓ **High-Impact Engagement:** Connect with professionals, students, and technology enthusiasts passionate about AI, Quantum Computing, Blockchain, and Cybersecurity.
- ✓ **Thought Leadership:** Associate with a premier platform driving conversations on emerging technologies and future-ready skills.
- ✓ **Visibility & Reach:** Your organization will feature across event collaterals, online promotions, and seminar communications.
- ✓ **Strategic Networking:** Opportunity to interact with academic and industry experts, innovators, and decision-makers.
- ✓ **Contribution to Growth:** Support initiatives that bridge knowledge gaps and empower the next generation of tech leaders.

# Empower the Next Generation of Tech Leaders <<<<

## Connect with the Audience That Matters:

- ✓ Interact with students, professionals, and innovators shaping tomorrow's tech landscape.
- ✓ Reach individuals curious about AI, Quantum Computing, Blockchain, and Cybersecurity—your future collaborators, employees, and clients.
- ✓ Engage with entrepreneurs exploring tech-driven business opportunities and professionals seeking to upskill.

## Key Takeaways for Sponsors:

- ✓ Align your organization with cutting-edge knowledge and innovation.
- ✓ Showcase thought leadership by supporting a high-impact learning platform.
- ✓ Build meaningful connections with a diverse, motivated, and forward-thinking audience.
- ✓ Contribute to developing the next generation of technology leaders and future-ready talent.

## Amplify Your Influence:

- ✓ Position yourself as a supporter of knowledge, innovation, and ethical technology adoption.
- ✓ Benefit from curated engagement opportunities, event promotions, and networking.
- ✓ Strengthen visibility across offline and online channels, reaching students, professionals, and enthusiasts across Delhi and beyond.

# Seminar Date & Time <<<<

## Seminar Schedule

Time	Session Title	Description

*The future belongs to those who prepare – and this seminar is a step towards building that future with clarity, competence, and confidence*

## Advisor's Message

Where AI converges with Quantum computing, Blockchain Technology, and Cyber Security, India emerges as a hub of limitless possibilities. Powered by visionary infrastructure and a vibrant pool of talent, we are driving inclusive progress, strengthening digital trust, and positioning the nation as a global leader in transformative technologies.

India is shaping the digital frontier of tomorrow - building secure, intelligent, and inclusive ecosystems. With bold vision and global collaboration, we are unlocking opportunities for innovation, growth, and leadership in the world's next technological revolution.

**-Er. Kamendra Kumar**

*Remained - Director, TCIL (A Govt of India Enterprise),  
Chairman Tamil Nadu Telecom, Vice Chairman, TEPC  
Telecom Exports, President, RUSA, Founder Convener of  
THOMSO Fest IIT Roorkee, Founding Member & Presently the  
EC member of Pan IIT Alumni Association PIAI*

## Director's Message

In the 21st century, technology is reshaping societies, economies, and cultures. As agents of change, we must work toward India's aspiration of becoming a developed nation by the 100th year of independence. This journey must be inclusive, sustainable, and responsible.

Innovation, born from continuous learning and creative thinking, is our first lever of progress. Coupled with mindfulness, empathy, and a solution-driven approach, it can help us address complex social and economic challenges while remaining conscious of our duty to the environment.

True growth lies not just in personal success but in giving back to society. By fostering social consciousness, sustainability, and altruism, we can build a virtuous cycle of peace and prosperity for all.

**- Er. Ajay Kumar Singh**

*Founder & Director, Vision IAS*

# Session Panelist's <<<<

## Artificial Intelligence

**Prof. (Dr.)  
Antarpreet Singh**

Ex CEO-CLO-APAC Head |  
Director-Academics

## Quantum Computing

**Prof. (Dr.)  
M. Salim Beg**

Telecom Expert | Former. Dean  
Faculty of Eng. & Prof Tech |  
Prof. DOEE AMU

## Blockchain Technology

**Dr. Ajay Shankar  
singh**
