THE WORLD MUST LEARN TO WORK TOGETHER,
OR FINALLY IT WON'T WORK AT ALL.

“THE day when Independence declaration was signed marks an important day for us. The independence declaration when 32 year old Thomas Jefferson said that “All Man are created equal.” is not only changed the course of USA but of all the world. But one more date is important

in our history. A date which came 11 years
after Independence declaration, which is the
date when ~~our~~ American Constitution came up.
That day marked the day of Interdependence.
It is this this interdependence which has kept
the spirit of USA alive for over 175 years.
And it this interdependence which will keep
the spirit of whole world alive."

The above speech was
given by John F Kennedy in 1962 where
he highlighted the fact that independence of
a man or a country is necessary but what
is equally important is interdependence of
us on each other ~~not~~ to live and prosper.
In essence what he says is that the world
can work only when we learn to
work together. Only by working together
could we achieve the greater good.

In this essay, why the world needs to work together to survive and ~~thrive~~ thrive? ~~why~~ what happens when we fail to do so? How does working together benefit us all? Further we will see what can be done to ensure that the world works together.

A WALK THROUGH THE PAST

A lot of philosophers have tried to explore how was the society in the past. Be it Thomas Hobbes or John Locke, all of them have tried to predict the state of Nature. Thomas Hobbes view was that there was violence in society, lack of justice and fairness. While Locke concept of state of Nature was of a more peaceful world, where rights ~~were~~

were upheld.

This conflict in the state of Nature is explained by Steven Pinker in his book Enlightenment where he gives scientific and statistical explanation to the way the world was. Steven says that 15% of all the deaths in the ancient times were due to violence which came down to less than 1% in 20th Century. Therefore Hobbes state of Nature is more correct explanation. And the reason Pinker identifies is that the world began to cooperate more as the time advanced and therefore reduce the barbarianism in the world.

But despite this, the world didn't learn to ~~work~~ work together and failed. The example of world war II is a case in point. The injustice done in

the Treaty of Versailles 1919 and blame
game done on Germany for World War
I felt the Axis against Allies. This
lack of cooperation in the world led to
the most brutal war the world ever saw.

Not only this, in the
Climate sphere too, the ultra nationalistic
Industrial policies of countries like UK,
USA, China has led to exacerbation
of Environment and causing Climate Change.

It is not only impacting the Small Island
developing states but would impact the
global economy. This impact would be
huge, about \$9-12 billion dollar as
per IPCC Report.

All this calls
for the reasons to know why the
world can't work together and

why we need to learn working together.

NOT WORKING TOGETHER WILL NOT WORK

Juval Noah Harari in his book Sapiens says that homo sapiens could survive and thrive better than other species only because they were better at cooperating with each other. However the world is not able to work together due to multiple reasons and causing various issues.

Firstly, due to lack of cooperation there occurs fight over resources and it pits one nation against other. The war over oil in Middle East is a case in point. This war and will to dominate has caused instability in the region and made it a graveyard of people living there.

उम्मीदवारों को इस हार्गिण में नहीं लिखना चाहिए
Candidates must not write on this margin

This way of Resource access has now extended to critical Minerals which is leading to neo colonialism of poor countries like those in Africa and hurting the rights of their citizens and their own sovereignty. Only by cooperation and resource sharing fears can be stored.

Further, there is issue of social imaginaries being created which leads to one country or one ethnicity considering it different from other. This could be seen from the conduct of Europe in Russia-Ukraine war where it is funding billions in aid for Ukrainians. But the ~~sto~~ same Europe is silent over continuous wars in Europe. This different approach ~~forget~~ that what Martin Luther King said - 'Injustice anywhere is a threat to justice everywhere'. Therefore,

a global outlook is required
Moreover, global cooperation
and working together is needed to fight
serious issues like Terrorism. Having an
indifferent attitude won't prevent countries
from the gambit of Terrorism. For instance,
USA never heeded to India's voice and advice
over fight against Terrorism and in the
end suffered massive attack in 9/11,
therefore signifying that until we work
together, we can't deal with the challenges.

In addition to this, working
together will ensure that an equitable
and inclusive world could be formed which
is under threat from developments like AI.
~~For~~ In the book 'AI Superpowers: China,
Silicon Valley and World Order', author
Kai Fu Lee says that due to high computing
power of China, it can overwhelm the

world with AI development - This development would be in space, defence, cybersecurity.

Therefore unless the world doesn't come together to form ethical guidelines, this welf warlike approach of a single country can't be controlled.

WORLD WORKING TOGETHER: THE SILVER LINING

We saw that how if the world doesn't work together, it leads to failure of global community. But what happens when we work together? Firstly, there is peace and prosperity. For example; as per UN report, the decade of late 1990s and 2000s are considered to be most peaceful in the world history. The signing of WTO led to increase in trade and world grew on an average of 6-7% with countries like china growing in double digits.

Similarly, working together ensures that common and united fight against big issues can be done. For instance, Montreal Protocol, world's most ratified protocol ensured that a global fight against ozone hole could be made. This united approach led to recovery of ozone hole and showed how global cooperation and world working together could make the irreversible reversible.

WORLD WORKING TOGETHER: PATH TO FUTURE

Thus, till now we have seen that how we ~~are~~ fail if we won't work together and what we can achieve if we work together, ~~but~~ it is pertinent to look what we need to do. Firstly, reforms in the global institutions is of paramount importance. The UNSC, WTO, IMF reforms will ensure that more equitable world

order could be achieved which was envisioned in the UN Charter - a dream of more prosperous, fair and just world.

Secondly, there is a need to work upon ultra nationalism by ensuring that we follow the concept of Integral Humanism. Integral Humanism would ensure that those who are vulnerable, who are in need of help are welcomed with open hearts and not closed fist.

Thirdly, we need to ensure that global cooperation shouldn't be just for namesake but of true purpose. Treaties like Non-Proliferation Treaty, put ~~the~~ developed countries against developing and threaten world order. Only by egalitarian approach we can

ensure fair world which will work together.

At last, we need to keep in mind that we live in a world of Nuclear Giants and ethical infants, Guided Missile and misguided men. Only an approach where the whole world comes together to work can work. Similar to

American constitution which talked about independence, the Indian constitution talks about principle of global citizenship and peace through Article 51. It is time for us to live by it or to put in ~~our~~ words of Narayan Guru's call-

"Like drops of water evaporating and coming together to form an ocean, we should become one". One for all and all for one.

To BE Yourself in a world that is constantly trying to make you something else is the greatest accomplishment

Krishna: Arjuna, why are you supporting Duryodhana? You are a person who knows Dharma, who has the potential to do thing right. Then why you are with him

Karna: Vasudeva, I am a son of charioteer. Since childhood, I have found

discrimination because of my low caste.
I wanted to be a warrior and learn
archery but Queen Draona refused that.
Draupadi refused to marry me because
of it. It was only because of Duryodhana
that I could become king and compete
with other kings on equal footing.
How can I abandon him?

Krishna: Angaraaj, when I was born, I was
separated from my parents. I had
no friend while growing up. Since all
of them were killed. The one girl
I loved so deeply, I couldn't
marry her. I had to abandon
Mathura due to Jarasandha and
set up my empire in Dwarka. My
whole life, I have never lived for
myself. Does it mean I shall
abandon my ~~the~~ Dharmma?

The above conversation happened between Krishna
and Krishna before the official proclamation

of Mahabharata war. What Krishna tries to convey through above conversation is that the world throws to us new situation and challenges and tries to change us as per it. But by living upto our ideals and sticking to our beliefs, we could resist that change and achieve what we want to achieve, the true realisation of ourself - the greatest accomplishment.

In this essay, we will explore, how the world tries to make us something else? How sticking to our belief, values we achieve greatest accomplishment? Why people are swayed by the world and what can be done?

WORLD TRYING TO MAKE US SOMETHING ELSE

There is a famous saying that a man is a product of society.

He lives in the society, learns in the society and when he dies, is cremated as per society rituals. Thus Society has a huge impact on a person's life.

For instance, parents decide what a career path should be taken by their child. This leads to millions of children living a life which they never imagined for themselves.

Similarly, the corporate culture where humans are considered to be resources leads them to follow a mechanical schedule of 9-5 job and giving up their dreams. This McDonaldisation

of society forces people to change them and fit in the society.

Further, social norms and values put a shadow of clouds on that person and prevent him from overcoming those norms and beliefs. For example, the Israel-Palestine war is not only because of the Proxy wars by superpowers but also because these wars lead to hatred in the people against other community, ~~and~~ which is challenged through lone wolf attack, terrorism or a full blown war. Therefore in such pressure and conduct, being the same person is greatest accomplishment - ment.

To Be Yourself is greatest accomplishment

It is commonly said that it is Bronze which changes its colour due to environment conditions but gold continues to maintain the same colour and that's why its value is high. Being yourself

is therefore important as it leads to various advantages. Firstly, by being himself, one can ~~achieve~~^{find} true purpose of his life and achieve it. For example,

Leonardo da Vinci refused to be limited by social setting of Milan and Florence and took help from both states and established himself as a painter, biologist, scientist etc.

Secondly, by being himself, one can find his own path to greatness. For example, Buddha Siddhartha visited from place to place and then under the Bodhi tree achieved enlightenment through meditation while Ananda; Buddha's cousin just followed and copied his methods.

Therefore, Siddhartha became Buddha while Ananda is just known as an aid of Buddha.

Thirdly, by being himself, a person's personality develops. He learns new things, he undergoes transformation. He learns how to face the challenges and conquer. Therefore Churchill said that

66 Every prophet has to come from civilisation but every prophet has to go through wilderness. He should live alone and conquer. and that's how Psychic dynamics is formed. This is shown by being himself and living and following the journey, greatest accomplishment are achieved!

Fourthly, by being himself a person not only creates the path for himself but inspires others. For example, Gandhi's method of independence struggle, of satyagraha and non-violence not only helped in achieving India's independence, but inspired people like Nelson Mandela,

Martin Luther King who followed that in
their country for freedom movement.

Thus Gandhiji path of non-violence is
an era of violence helped him achieve
greatest accomplishment - greater good of humanity.

People shy to be Themselves

It is clear that by being
himself, a person can achieve greatest
accomplishment. Why then people change
themselves? One of the reason is Fear.

Fear of failure prevents the person from
being himself and doing what he wants to
do. Therefore it is important to remember
what Franklin D Roosevelt said during the

launch of New Deal that
is a choice and the only thing we have
to fear is fear itself as this fear
prevents us from fully devoting ourselves to my
task.

Another reason why people can't be themselves is that they fear that they are less in number and so they can't win. On this we should live by what Charles de Gaulle, President of France said when asked - "Weren't you always in minority in every big decision of your life?" On this Gaullé replied, "I was in minority, I agree but I knew I was right and sooner or later, I will cease to be so." Thus having belief in ourselves can counter the notion of minorities.

Moreover, people don't have faith that they have chose the right path and change their path midway. Therefore it is important to follow what Harivansh Rai Bachchan said in Madhusala - "Rach Takad tu ek chala chal, pa jayega tu Madhusala"

i.e. stick to your path and you will achieve your goal.

उम्मीदवारों को इस हाशिए में नहीं लिखना चाहिए

Being Yourself: Tread with Caution

Being Ourselves in the society which is constantly trying to change us is important but there should be some precautions. Being ourselves should not be linked with being narcissist and holding everything one holds true. Even Hitler didn't change himself when he should have changed. And by remaining in his own chamber and of Hatred, Revenge, he not only caused harm to himself but to the greater humanity as well.

Similarly, changing ourselves is important as change is the only constant. Be it an ~~society~~ individual, a society or a country, it should change. The case of Soviet

union which resisted change, led to its own downfall. Therefore we should adopt as new technology, ideology comes.

Path for the future

So what should we do, should we be ourselves or we change? The answer lies in sticking to your belief and immutable tenets like compassion, empathy, your dream which helps in greater good. These things should be constant but things like change in society, technology should be accepted.

As we move ahead, we should remember the message of Krishna to ~~Arjuna~~ Karna and how if he had

had heeded to the advice of Krishna, he would ~~has~~ not only have upheld his dharma but there would have been greater good of humanity. His friend Duryodhana for whom he fought the war ~~was~~ would be having the biggest Empire. But Karna ~~big~~ budged under society conduct and pressure. This is not the story of Karna alone but many of ~~us~~ us who constantly come under influence of society and forced to change themselves. Therefore it is important to live by what Nelson Mandela said - in his book Long walk to Freedom - "I have walked that long walk to freedom. And I have learnt that after every walk, there is one more walk which has to be initiated and only by this continuous walk, we can achieve Freedom."
